FRONT END DEVELOPER

- Front End Developer with a strong understanding of React principles including components, hooks, state management, data flow, and error boundaries.
- Demonstrates strong collaboration skills within cross-functional teams, leveraging effective communication and attention to detail, working in Agile/Scrum methodologies.
- Skilled in cross-browser compatibility, responsive design, and performance optimization techniques, providing seamless user experience and maximum application pace across platforms.
- Proficient in debugging and troubleshooting, leveraging problem-solving skills to promptly identify and resolve issues, and participating in code reviews to facilitate continuous improvement.
- Committed to continuously learning current trends and advancements in emerging technologies with a track record of delivering high-quality market-leading solutions.

CORE COMPETENCIES

Languages: HTML5, CSS3, JavaScript

Libraries and Frameworks: Bootstrap, Tailwind, React.js, React-Router, React-Query, Redux-Toolkit, Firebase, Formik, Yup, Material UI, Ant Design

Tools: NPM, Webpack, Babel, Parcel, Vite, Figma, Zeplin, Postman, Swagger, Axios, Netlify, Render

Version Control Systems and Collaboration: GitHub, GitLab, Azure DevOps, Jira, Open Project

WORK EXPERIENCE

Front End Developer – Openspace Services Pvt Ltd

2022 – 2023

- Facilitated the development of admin portal applications using React, serving 10,000+ B2C/B2B customers, implementing complex features and adhering to best practices for code quality and maintainability.
- Streamlined the development, maintenance, and scalability of applications via component-based architecture, Redux state management, lazy loading, code splitting, and modern build tools.
- Enhanced user accessibility, by collaborating with Designers and Product Managers, to translate wireframes and designs into functional and visually appealing user interfaces using HTML5, CSS3, JavaScript, and JSX.
- Achieved consistency across different web browsers, devices, and screen sizes with a mobile-first responsive design approach using Media Queries, Bootstrap, Tailwind, Ant Design, and Material UI.
- Secured user integrity and frontend applications by integrating Microsoft Azure Active Directory SSO, JWT authentications, conditional routing, and comprehensive error handling.

- Ensured smooth data flow and seamless integration between front-end and back-end systems, and APIs by utilizing Fetch API, Axios, Redux-Thunk, and React-Query in collaboration with Back End Developers.

OTHER WORK EXPERIENCE

Front End Associate - Moorabbin Wholesale Farmers Fresh Market	2020 – 2021
Project Engineer - Exel Galaxy Technology Services Pty Ltd	2017 – 2020

PROFESSIONAL DEVELOPMENT

Docker Training Course for the Absolute Beginner – KodeKloud	2024
React & TypeScript – The Practical Guide – Udemy	2024
Web Development – Cantek	2024
Full Stack Web Development – TryCatch Classes	2023
React – The Complete Guide – Udemy	2022
Advanced Javascript – Udemy	2022
AWS Certified Solutions Architect Associate – AWS	2021
AWS Certified Developer Associate – AWS	2020

EDUCATION

Master of Engineering in Telecommunications – Melbourne Institute of Technology
Bachelor of Engineering in Electronics – Atharva College of Engineering
